## CLASS UP YOUR KITCHEN

Whether it's a full remodel or just a few small touches to make it seem new again, we picked out some products to make your kitchen shine.

### BIRD MAFIA'S WILD GARDEN TOWELS

Pretty up your kitchen with a set of flour sack towels from Bird Mafia, a Portland-based design company. The towels are screen-printed by hand based on designs cut from a single sheet of paper. The towels come in a variety of designs, all inspired by the beautiful world outside your kitchen window.

**\$20 for two**

### NATIVE TRAILS FARMHOUSE DOUBLE BOWL SINK

This concrete farmhouse sink is the perfect combination—beautiful and easy to maintain. Available in four colors, it can be installed as an apron front or a standard undermount, and is made from a combination of jute fiber and cement—which means it weighs a lot less than other concrete sinks, too.

**\$1,925**

### BIG CHILL 24-INCH RETRO FRIDGE

If you love the look of the 1950s but prefer the energy efficiency of today's appliances, Big Chill has you dialed. This vintage refrigerator is designed for a smaller space, but the company offers larger options as well as matching ovens, stovetops and other appliances (including a dishwasher front). There are more than 200 custom color options that will make your space singularly cool.
