BY KAYLOR JONES

**Keep your summer** treats cool in the classy but sassy Studio Fridge by Big Chill. At just under 5 1/2 feet tall, the retro-inspired appliance is perfectly sized for a vacation casita, lending a funky-fashionable personality to any small space. The fridge combines the nostalgia of decades past with the comforts of modern technology, featuring automatic moisture control, a temperature management system, and an optional interior ice maker, all wrapped up in a chrome-trimmed package. Available in nine standard colors (pictured in Jadite Green), the fridge features the choice of a left- or right-sided handle, and design buffs can choose to upgrade to one of over 200 available custom colors for an additional \$400. \$2,895 at Big Chill, [www.bigchill.com](http://www.bigchill.com).
